

SRPA Curriculum

Our vision

The Curriculum at Sir Robert Pattinson Academy enables our students to dream, achieve and believe in their capabilities by providing an exceptional, inspiring educational experience, which allows students to fulfil their potential and become highly employable and successful members of society.

Information for parents and carers of Year 9 students

This document has been produced to support parents and carers in ensuring that all **Year 9** students continue to access a rich, challenging curriculum throughout this period of disruption that we are currently facing.

On pages 3-5 you will find details regarding the resources and instructions for students to continue their learning whilst working from home. On page 6 you will also find a list of email addresses for key contacts in each department, should you have any queries regarding these resources (for example, if your son/daughter has forgotten their password). Pages 7-9 show details of the online resources available to support students in all subject areas.

The Academy continues to provide access for our online library provision, which includes eBooks. Instructions and IT access for this process have been e-mailed out to parents with contact information for further enquires.

Please note that there are resources for supporting mental health, which can be found on our school website at <https://www.srpa.co.uk/rp-hub/>. The information signposts to online services such as KOOH and Shout, which offer flexible support for young people via a digital platform. If you have any further questions or would like to know more, please speak to the relevant house team.

Please do not hesitate to contact us at the academy if you have any queries regarding the information contained within this document, or if we can do anything further to support the learning of your son/daughter at this time. The e-mail to use is enquiries@srpa.co.uk. If you require any technical assistance with IT then please contact ITSupport@srpa.co.uk.
